## LEAD-BASED PAINT MANAGEMENT PLAN

### LETTER OF PROMULGATION

1. Army Regulation (AR) 200-1, "Environmental Protection and Enhancement," outlines a strategy for an installation lead-based paint management program.
2. The objective of the Lead-Based Paint (LBP) Management Plan is to maintain a permanent record on the status and condition of all LBP in the installation's facility inventory. It must be updated on a continual basis.
3. Design of the plan is to be consistent with AR 200-1. Known as the Fort Campbell Lead-Based Paint Management Plan, this plan is hereby approved and implemented at Fort Campbell, Kentucky.
